Dear PhD students,
dear Postdocs,

on behalf of the president of the German Pharmaceutical Society (DPhG), Prof. Stefan Laufer, we would like to invite you to present your research findings at the International PhD Students/Postdocs Meeting. In 2017 the event will take place in Frankfurt at Sanofi-Aventis Deutschland GmbH, a member of the Sanofi Group, a global healthcare leader.

It has a global workforce of 110,000 employees, with about 9,200 in Germany, 8,400 of them work at Sanofi-Aventis Deutschland GmbH, all the others at other subsidiaries of Sanofi. The company's sites are Frankfurt-Hoechst and Berlin. Frankfurt-Hoechst is an important part of the European research network and in addition the largest integrated production and manufacturing site within the Sanofi Group. The main areas of research there are diabetes and immunology.

The Frankfurt facility is globally networked with the Group's other research locations and is constantly sharing results and ideas with universities, research institutions and biotech companies. Frankfurt is one of the four R&I Hubs, the group's integrated research and development centers, where in-house research and that by external partners is pooled.

The number of the PhD students/Postdocs is limited to 40. To qualify, you should be advanced in your doctorate or a Postdoc (doctorate 2015 – 2017). Ideally you already have submitted or published your first scientific paper.

At our international PhD Students / Postdocs Meeting we would like to challenge you scientifically, but also to support you in planning your career. We will discuss career opportunities in academia and industry in detail. The meeting will give you the unique opportunity to network and share professional experiences.

**Good to know:** We have negotiated attractive conditions with the Hotel. As a member of the DPhG you only pay 200 Euro as contribution for the meeting fee, the overnight costs at the hotel (2 nights in a single room) and all meals. Should you wish to share a room with a colleague your contribution decreases to 170 Euro. (Non-members pay 250 Euro or 220 Euro, respectively).

We look forward to your participation.
Please register online.
