

International PhD Student & Postdoc Meeting 2021 of the German Pharmaceutical Society (DPhG)

Virtual Meeting on March 11 - 12, 2021

DPhG

Deutsche
Pharmazeutische
Gesellschaft e.V.

 **EVONIK**
KRAFT FÜR NEUES

Science and Opportunities

Dear PhD Students, dear Postdocs,

on behalf of the President of the German Pharmaceutical Society (DPHG), Prof. Dagmar Fischer, we would like to invite you to present your research findings at the Annual PhD Student & Postdoc Meeting. In 2021, the event will take place as a virtual meeting jointly organized by the DPHG and Evonik Industries AG (Darmstadt). Evonik is one of the world leaders in specialty chemicals and serves as a supplier, development partner and solutions provider to the world's leading pharmaceutical and life science companies.

The number of participating PhD students and postdocs is limited, and therefore it is recommended to register as early as possible.

To qualify for participation, you should be an advanced PhD student or a young postdoctoral scientist (max. 2 years after PhD). Ideally, you have already submitted or published your first scientific paper. The best submitted abstracts will be selected for short presentations.

At our international PhD Student & Postdoc Meeting, we would like to challenge you scientifically. You will have the opportunity to work in a small team on a case study, present the results, and get feedback from our industry partners.

Moreover, we will support you in planning your career. Career opportunities in industry and academia including insights into international careers will be presented and discussed.

Good to know: The best presenters can look forward to win attractive prizes, such as mentoring programs offered by renowned pharmaceutical companies!

We look forward to your participation!

Please register online. The registration fee for this virtual meeting will be only 10 Euros.
